ADVANCE DIRECTIVE NOTIFICATION

All patients have the right to participate in their own health care decisions and to make Advance Directives or to execute Powers of Attorney that authorize others to make decisions on their behalf based on the patient's expressed wishes when the patient is unable to make decisions or unable to communicate decisions. Haymarket Surgery Center respects and upholds those rights.

Our team is dedicated to delivering the highest quality care in a safe environment that places the patient at the center of our care. We respect your right to participate in making decisions regarding your care and self-determination. After careful consideration and reviewing the applicable state regulation (Article 8 Health Care Decisions Act), the leadership of the facility has established a policy that should the need arise, to initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation. The majority of procedures performed at Haymarket Surgery Center are considered to be of minimal risk, hence the risk of you needing such measures are highly unlikely. At the acute care hospital,

further treatment or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, advance directive, or health care power of attorney.

You have the option of proceeding with care at our facility or having the procedure at another location that may not set the same limitations. Having been fully informed of our Statement of Limitations, you choose to proceed with your procedure at Haymarket Surgery Center.

If you wish to complete an Advance Directive, copies of the official state forms are available at our facility.

If you do not agree with this facility's policy, we will be pleased to assist you in rescheduling your procedure.
